- General guidelines for Risk Assessment and Risk Register

### ➤ **State/Territory**

- Occupational / Work Health and Safety Acts and Regulations
  - Application of WHS Act and regulations for Business and PCBU
  - Due Diligence
  - Primary Contractors

### ➤ **Local Council**

## DUTIES UNDER WORK HEALTH AND SAFETY LAWS

Model Work Health and Safety (WHS) laws require a Person Conducting a Business or Undertaking (PCBU) to –

- Take care of the health, safety and welfare of your workers, including yourself and other staff, contractors and volunteers, and others (clients, customers and visitors) as your workplace
- PCBUs have a duty to provide and maintain, so far as is reasonably practicable, a working environment that is safe and without risks to the health.

## DUTIES UNDER WORK HEALTH AND SAFETY LAWS

This includes preventing, and where prevention is not possible, reducing risks to health or safety associated with potential exposure to COVID-19.

To meet **obligations**, PCBU's (inc business owners) need to adopt [proactive risk management strategies](#) in minimising the potential for contracting COVID-19 in the workplace context.

It is important that you:

- Actively consider the context of your business – the workplace, the work carried out, your workers and visitors who attend the workplace
- Do what you reasonably can to eliminate or minimise the risk of the people at your workplace contracting COVID-19

What's your plan to be
